EV Charging Infrastructure and Innovation: An Update for Councils

Starter Guide to Electric Vehicle Charging Infrastructure Rollout for Local Authorities

Agreed by the EVCI Working Group in September 2021, this working group is tasked with developing Framework templates for four key components for local authorities to rollout EV charging infrastructure.

15th November 2022 saw Official Launch of the of Starter Guide to Electric Vehicle Charging Infrastructure Rollout for Local Authorities

Main Sponsor

Lcrig/TTF conducted a survey asking local authorities to rate these four essential components of the EVCI deployment in the order they would want to see the templates built.

Survey result

- Procurement
- Site selection
- Consultation
- Delivery
